

Environmental Policy

Australian Mining Product and Services Pty Limited

Australian Mining Product and Services Pty Limited is committed to minimising the environmental impact of its operations. Australian Mining Product & Services Pty. Limited, achieves this through responsible management practices which identify environmental risks and include appropriate controls to either prevent or mitigate those impacts.

For the purposes of this Policy, “environment” is broadly defined to include the natural, cultural heritage and local community and landowner considerations of the operating area.

COMPANY Management will:

- Ensure compliance with all relevant environmental protection legislation
- Maintain a focus on proactive, preventative measures which identify hazards and minimise environmental risks so far as is reasonably practicable
- Promote the efficient use of energy and resources and waste minimisation by setting clear objectives and targets
- Maintain the importance of remaining respectful to the cultural heritage of the land we are operating on and minimising our impact on the local community
- Clearly communicate to all employees and contractors the importance of this Policy as a key part of our corporate responsibility
- Require service providers to take similar steps to manage environmental issues with regards to COMPANY operations

COMPANY Employees will:

- Remain mindful that their actions or omissions can influence the local environment and make reasonable efforts to minimise this
- Actively participate in efforts to identify environmental hazards, implement control measures and provide feedback on their effectiveness
- Intervene immediately to stop work (either of their own or that of others) if they have environmental concerns and take appropriate action to address these concerns
- Ensure timely reporting of all actual incidents, potential incidents and observed conditions or actions which may impact the environment
- Cooperate with all COMPANY policies and procedures and reasonable instructions relating to environmental protection

This policy applies to all, workplaces, temporary or permanent, where Australian Mining Product and services, personnel maybe operating at. work places. This document will be reviewed each year and updated if necessary.

Failure to adhere to this policy may result in disciplinary action.

Lauren Margaret Fernandez

Health, Safety, Environment & Community Officer
